**DJ South Gathering and Rocky Mountain Midstream
Remora Pipeline Joint Project**

Presenter: Martin Lohmann

Case Introduction – Location

- ❖ The project will originate at the Occidental Petroleum Corporation Remora pad site located on Parcel 1981-00-0-00-244, Section 6, Township 4 South, Range 63 West, in Arapahoe County (Arapahoe County USR # AE24-006) and terminate at Rocky Mountain Midstream's parcel 0181735200001, Section 35, Township 3 South, Range 64 West, 2150 Manilla Rd., Adams County.

Case Introduction – Proposal

- ❖ CR Land Services, on behalf of DJ South Gathering LLC and Rocky Mountain Midstream LLC, proposes a collaborative pipeline connections project. will connect to DJ South's existing pipeline system in Adams County and to Rocky Mountain Midstream's existing compressor station.
- ❖ This project seeks to add the Remora Pipeline Project to the Remora oil and gas pad project(AE24-006).

- ❖ The objective of this pipeline is to transport Occidental's crude oil and gas production from the facility in Arapahoe County to DJ South's proposed interconnect site in Adams County.
- ❖ Oil Pipeline: Installation of a 6-inch diameter pipeline along the same route and timeline as the 12-inch natural gas pipeline.
- ❖ Natural Gas Pipeline: Installation of a 12-inch diameter along the same route and timeline as the 6-inch diameter oil pipeline.

Planning Commission Public Hearing

- ❖ There were no comments from the public.
- ❖ Applicant was asked to address referral comments made by Colorado Parks and Wildlife(CPW) and Bennett Watkins Fire Dept(BWFD).

- ❖ Bennett Watkins Fire Department(BWFD) has no objections; however, BWFD would like to discuss with applicant any potential future water infrastructure to support emergency firefighting purposes; I.E., Hydrants access points.
- ❖ Division of Engineering Services reviewed the proposed Pipeline route and did not identify any conflicts with the following recommendation:
 - ❖ The applicant agrees to address the Division of Engineering Services(DES)' comments and concerns as identified within the DES report.
 - ❖ The applicant agrees to enter the License agreement as outlined in the DES document.

Staff Recommendation

WILDLIFE (CPW Comments)

- ❖ *Time **high-noise construction** activities outside of critical winter and breeding seasons.*
- ❖ ***Incorporate sound-dampening** design features into facilities, including acoustic shielding, mufflers on equipment, and vegetation buffers where feasible.*
- ❖ ***Install perimeter sound walls** or acoustic barriers along property boundaries to reduce noise propagation into adjacent wildlife habitats. Northern and Southern development perimeters are strongly advised, as identified in the Big Game section above, to limit disruption of wildlife use of wildlife crossing areas.*
- ❖ ***Use of vegetated earthen berms** as natural acoustic buffers, providing dual benefits of noise attenuation and visual screening through the establishment of native vegetation.*
- ❖ ***Incorporate native evergreen and dense shrub** plantings within landscaped buffer zones to enhance year-round acoustic and habitat benefits.*
- ❖ *To the extent feasible, **limit operational noise** during nighttime hours, such as reducing delivery activities, vehicle idling, and mechanical equipment operations when wildlife activity is typically heightened.*

ARAPAHOE COUNTY
