

BENNETT SCHOOL DISTRICT 29J

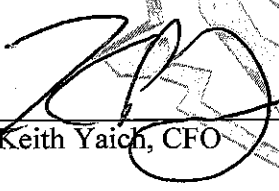

February 20, 2024

RE: Will Serve Letter CZ23-001 Greenland Estates Acres

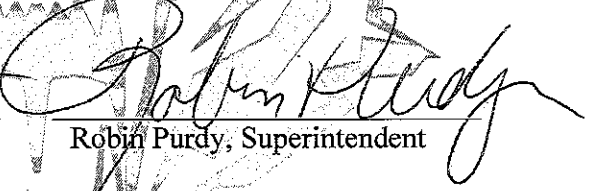

Kathleen,

We met with Mr. Reyher again about the Greenland Estates Acres Subdivision in February 2024. We had our first meeting in November of 2023. In lieu of another bond measure failing Bennett School District 29J cannot justifiably serve any more students in our district until we can get more instructional space. There are several active developments currently in some form of development that will push us measurably past capacity due to the Town of Bennett's previous approvals. This doesn't include the almost 500 homes that have been already constructed over the past 3-5 years. We understand that this subdivision is slated to have only approximately 54 homes and Mr. Reyher was very thoughtful in his meeting with us and explained that it could take several years to complete. However, due to the lack of space and projected growth we will be need to be consistent with all developers moving forward until we can get a bond passed.

Sincerely,

Keith Yaich, CFO

Robin Purdy, Superintendent
