[EXTERNAL]

Daniel, you are clear to take water for the duration of your project. Rangeview Metropolitan District will provide you with at least 20,000 gal/day of Denver Basin Groundwater at either of the 2 loadouts.

Geoffrey Greenman
Water System Manager
Pure Cycle/ Rangeview/ E86

[EXTERNAL]

Hello,

Rangeview Metropolitan District has two bulk water fill locations. You shared interest in

the one on Quincy so will attach the maps pin below. Attached is the permit for you to fill out and return to AR. Once that info is sent over, we can get a PIN code set up quickly. Also, don't share the codes with anyone not authorized to take water on behalf of your company.

Here is the location of the Lowry Ranch fill station-

<https://maps.app.goo.gl/iqi6jxJxpDvjyVmP9> ,

39.637273, -104.622664

Arapahoe County, Colorado 80137

Price is \$14.76/1,000gal and \$100, one time, admin fee for the account set up. We can deactivate or reactivate the account at any time.

Please let us know what the timeline for you project looks like as we can keep the code active for however long your company needs it. How much water will your company use during this project?

Let us know if you have any questions and if you want us to meet you on your first load just give us advance notice. We can give a tutorial. There are instructions on the permit, and the fill station is user friendly so you shouldn't have any issues.

Best regards,

Savanah Torres

Savana

Please send me the request form for bulk water. We will go forward on this. I have also included the info that we need for the permits. If you can help me with this it would be greatly appreciated. If you have any questions, please contact me. Thank you.
