**RE: Engineer's Certification of No Impact for Floodplain Development Permit
Case No. LE25-003 ASI25-001**

Dear Mr. Weimer,

This letter serves as Certification of No Impact to the Floodplain for the project entitled "Xcel Tline: Pathways Segment 5 Arapahoe County Build." The project is located in Arapahoe County and involves the construction of approximately 18 miles of new 345-kilovolt (kV) double-circuit overhead transmission line through Arapahoe County, extending from the Harvest Mile Substation to proposed Structure 593 near the Arapahoe–Elbert County boundary.

The Federal Emergency Management Agency (FEMA) Special Flood Hazard Area (SFHA), as shown on the Flood Insurance Rate Map (FIRM), indicates that the project area is located along Black Shack Creek and within the approximate 100-year floodplain.

- Pole # 682, Black Shack Creek within a Zone A SFHA of FEMA FIRM panel 08005C0219L, effective date April 18th, 2018.
- Pole # 678, Coal Creek within a Zone AO SFHA of FEMA FIRM panel 08005C0219L, effective date April 18, 2018, and panel 08005C0240M, effective date September 28, 2018.
- Poles #652 and #651 at Box Elder Creek that are within a Zone A SFHA of FEMA FIRM panel 08005C0245L, effective date September 28, 2018.

No increase to either the floodplain width or water surface elevation will result from the project, as detailed in the provided Technical Memorandums

Sincerely,
Jose Velasquez, PE, CFM
