

April 7, 2024

Dear Arapahoe County Board of County Commissioners:

We, the undersigned 276 taxpayers of Arapahoe County, who live directly around Lakeview Park, respectfully request an appeal hearing regarding the installation of a 65-foot multi-carrier cell tower complex inside our beloved neighborhood.

For clarity, we are the taxpayers who reside in homes that most closely surround this proposed tower (see attached map). Our families will now have look at this enormous, unattractive tower every single day from our homes for the next 60+ years. However, ironically, the taxpayers who are most affected by this project were left out of the decision-making process. Our access to knowledge and ability to voice our opposition to the project has been repeatably suppressed and misrepresented.

An appeal hearing in front of the Board of County Commissioners is our last chance to be heard and considered. In turn, we plead that our elected Commissioners will grant an appeal hearing so we will finally have the opportunity to present the truthful facts regarding this project, and illustrate the negative impact that this out of context cell tower will have on our community, property values, and quality of life in Arapahoe County.

Our presentation at the hearing will focus on 4 factual issues that we believe were incorrectly concluded and/or omitted in the Planning Division Manger's letter dated March 25, 2024, regarding the approval of LE21-002 and CMRS21-001.

- 1) The Applicant failed to follow the Land Development Code (LDC) 5-2.1.B.2 processes regarding proper notification and feedback gathering from the directly affected taxpayers who live around Lakeview Park, and the Planning Department failed in its duty to verify the information provided by the Applicant was accurate and truthful. It is not a coincidence that the hundreds of taxpayers in a tight-knit community, all who live directly around Lakeview Park, had no knowledge of this project until after the approval of the LE21-002 zoning change to allow a 65-foot cell tower in a R-4 neighborhood. This level of lack of public knowledge about a major project only happens if there was a purposeful effort by the Applicant to suppress taxpayer awareness, and provide the County false and misleading information stating that: a) proper notice was served and, b) the Applicant held multiple meetings directly with the residents of Lakeview Park.

If the zoning height change contemplated in LE21-002 was not first approved, the Applicant could not propose a 65-foot tower in CMRS21-001. Given the approval of a CMRS application is a bureaucratic decision made solely by the Planning Division, without accountability to the affected taxpayers, the Lakeview Park citizens were irreparably disenfranchised when they were not properly notified of LE21-002. Further they were victims of fraudulent misrepresentation when the Applicant mislead the Planning Division and Planning Commission into believing that notice and conversations with Lakeview Park HOAs and residents occurred, and that Lakeview Park residents were in favor of the cell tower. When in fact, these conversations absolutely did not occur, and the Lakeview Park residents are adamantly opposed to this zoning height change and tower. This unethical behavior violates Section 5-2.1.B.6.e.

- 2) The proposed project fails to meet the industry accepted definition of being "architecturally compatible with the surrounding area" as per Section 3-3.8.A.2.b.i of the zoning code. The 65-foot tower with visible antennas and cabling, will be more than 2 times the height of any surrounding structure or existing tree, so it will tower over everything and look extremely out of place in a R-4 zoned area (i.e., R-4 zoning only allows 35-foot-tall structures). The Applicant admitted on March 15, 2022 that given the height and design of the tower compared to the surroundings, a faux tree design, "*is not going fool anybody, it's going to be a cell installation.*" Furthermore, given the minimal setback from surrounding homes (only 31-60 feet), the tower's large height and mass will change the natural lighting in homeowner's properties and neighborhood's current character. Additionally, only adding two 6-foot spruce trees, while removing a healthy 32-foot deciduous tree is inadequate in meeting the screening requirements in Section 3-3.8.A.5.d.i.
- 3) The Applicant or Planning Department did not complete an environmental or safety review before submission or approval. The 65-foot tower will stand directly over a pedestrian sidewalk that hundreds of children and adults walk along every day to reach the nearby school and bus stop. The tall tower will introduce a heath and safety danger from falling ice, metal branches, and sharp plastic pine needles that are known to detach in inclement weather and wind.
- 4) The Applicant did not meet the burden of proving that there are no feasible existing structures upon which to locate or co-locate additional antennas, per 3-3.8.A.1.d and 3-3.8.A.5.e. There is an existing tall cellular tower near Cherry Creek Drive and E Crestline Circle in the uninhabited State Park which is closer to the targeted cellular improvement area than Lakeview Park. There are tall warehouse buildings along E Caley Avenue and a fire station at E Orchard Rd and S Havana St. Additionally, the Applicant ignored an offer from CCVPRD for alternative locations closer to the targeted improvement area that would allow for Small Cell technology that supports multiple carriers including Verizon.

Sincerely,

The Undersigned Arapahoe County Taxpayers and Citizens of Lakeview Park
