Re: Canyon Peak Power Project – USR 1041 Permit Application

Dear Public Works & Development:

Canyon Peak Power LLC ("Canyon Peak"), an affiliate of Kindle Energy LLC, is proposing a 150-170 MW power generation facility (the "Project") within Arapahoe County. The Project is located at 5050 N County Rd 129, Bennett, CO 80102, 1 mile south of the intersection of County Road 129 and County Road 30.

The Project is intended to be sited on 20.01 acres (871,548 square feet) owned by CORE Electric Cooperative ("CORE") which is currently zoned A-1 Agricultural (Site Parcel ID: 2067-00-0-04-001). The Project will be comprised of power generation units outfitted with selective catalytic reduction units and oxidation catalysts to control NOx emissions and other pollutants. The Project also intends to construct a control room building; an administrative/maintenance building; a stormwater detention pond; drive aisles to allow for 360-degree access around the property; a fire suppression loop; and parking for employees on the south side of the property. A natural gas lateral pipeline will connect the Project to the Colorado Interstate Gas ("CIG") pipeline that runs 3.75 miles to the north of the property along County Road 129.

Once completed, the Project will exclusively serve CORE members and will be interconnected, and co-located, with CORE's Brick Center substation.

Very Truly Yours,

Jon Baylor
