	CHERRY CREEK SCHOOL DISTRICT 5- REFERRALS	Cherry Creek School District No. 5 has reviewed the information provided by Arapahoe County regarding the specific development plan for the Caliber at Copperleaf project and will provide educational services to the future residents of this project. Students from this project are within the current boundaries of Aspen Crossing Elementary School, Sky Vista Middle School, and Eaglecrest High School. Boundaries are subject to change when necessary to promote the efficient utilization of school facilities. A land dedication for this project was included with the entire Copperleaf development.

	XCEL ENERGY	PSCo owns and operates existing electric distribution facilities along the north and east property lines including a transformer on the north side of the property, and requests that they are all shown and labeled on the plans. Space consideration must be given to locate one or more pad mount transformers on this property with ground to sky clearance. Developer must complete the application process for any new natural gas or electrical service, or modification to existing facilities. It is then the responsibility of the developer to contact the Designer assigned to the project for approval of design details. Additional easements will be acquired by separate document for new facilities, be sure to contact the Designer and request that they connect with a ROW Agent. All easement labels referenced as "XCEL ENERGY" must	The applicant has contacted Xcel and have started the coordination process.

		be changed to “PSCO”. Although “branded” as Xcel Energy, the legal owner and operator of the utility facilities in Colorado is Public Service Company of Colorado. All utility facilities and related land rights, including fee property, easements, permits, etc., are owned by, operated by and held in the name of Public Service Company of Colorado, a Colorado Corporation. As a safety precaution, PSCo would like to remind the developer to call the Utility Notification Center by dialing 811 for utility locates prior to construction.
