

**ARAPAHOE COUNTY PLANNING COMMISSION
PUBLIC HEARING
OCTOBER 7, 2025
6:30 P.M.**

SUBJECT: PM25-002 – K & F MINOR SUBDIVISION / FILING NO. 1

ERNIE ROSE, SENIOR PLANNER

LOCATION:

The property is situated at 58975 U.S. Highway 36 in Strasburg. It spans 6.41 acres and is currently zoned B-4 Specialty Commercial District; it is in Commissioner District No. 3.

Property (show in red above)

ADJACENT SUBDIVISIONS, ZONING, AND LAND USES:

North:	Single-family residential, zoned RR-B
South:	Single-family residential, zoned A-E
East:	Single-family residential, zoned RR-B
West:	Single-family residential, zoned RR-C

PROPOSAL AND REQUEST:

The applicant, Carrick Engineering Corp, on behalf of the owner, K & F Properties, is processing a Minor Subdivision to formally plat this 6.41-acre parcel so that the property can be developed. The project is located at 58975 U.S. Highway 36; parcel ID 1983-00-0-00-223. The owner proposes to construct a 10,500-square-foot building for light industrial metal fabrication. This would occur under a separate application for an Administrative Site Plan if the property is legally platted.

BACKGROUND

The parcel is located approximately one mile east of Strasburg, covering 6.41 acres. Currently, the property features a commercial shop building, truck parking, and outdoor storage, all with direct access to U.S. Highway 36. The current zoning classification is B-4 (Specialty Commercial District), which permits both the existing and planned uses of the property. Arapahoe County approved a rezoning of the property from A-2 agricultural to B-4 on October 21, 1974 (case no. Z74-010). The land has never been officially subdivided in accordance with the Arapahoe County Land Development Code; according to county records, the parcel was created in 1978, and a subdivision would have been required at that time. If this case is approved, it will create a lot that is eligible for building permits.

ANALYSIS OF THE MINOR SUBDIVISION APPLICATION

Staff review of this application included a comparison of the proposal to: 1) applicable policies and goals outlined in the Comprehensive Plan; 2) Minor Subdivision Regulations; and 3) analysis of referral comments.

1. The Comprehensive Plan

Comprehensive Plan (Comp Plan): Although the Comprehensive Plan currently identifies this property as being in Tier 2 Agricultural, the classification is proposed to change as part of the new Strasburg Subarea Plan, which is in draft form and out for public comment until September 29, 2025. The proposed Subarea Plan classification is better aligned with the property's existing zoning.

The original Subarea Plan, prepared in 2002, did not include this property in the planning area, but the new updated plan does. The proposed classification of this property is "commercial", which is defined as: "Primary uses are retail, office, accommodation, and restaurant. Secondary uses can include residential, medical facilities, schools, and places of worship." The current B-4 zoning designation includes light industrial land uses; an amendment to the draft sub-area plan land uses to include light industrial uses is under consideration.

This proposal complies with the Comprehensive Plan as follows:

LUH Strategy 1.1.8: Limit residential and commercial development to the boundaries of the Planning Area established by this Plan.

Under the draft Strasburg SubArea Plan, this property is now included in the commercial development area, which extends to the boundaries of the Planning Area defined by this Plan.

POLICY GM 1.2 - Encourage Infill Development and Redevelopment. Arapahoe County will encourage infill development that is compatible with existing land uses in the Urban Area to take advantage of existing public infrastructure and services.

This minor subdivision permits future redevelopment of this parcel.

GOAL PSF 1 – Ensure an Adequate Water Supply in Terms of Quantity and Quality for Existing and Future Development

Strausburg Sanitation and Water District (SSWD) supplies water to the subject property.

PFS 4.3 - Require Adequate Wastewater Treatment

The Arapahoe County Health Department (ACHD) has reviewed the proposed subdivision and has no objection to the use of On-site Wastewater Treatment Systems (OWTS) on this property.

GOAL PFS 6 – Ensure the Adequacy of Electric, Natural Gas, Telephone, Cable, and Internet in Existing and New Development

Core Electric can serve the proposal.

GOAL PFS 7 – Ensure Existing and New Development have Adequate Police and Fire Protection Utilities in Existing and New Development

The Arapahoe County Sheriff's Office and the Strasburg Fire Protection District will serve this development.

2. Land Development Code – Subdivision Regulations

A Minor Subdivision follows the Final Plat process, as outlined in Sections 5-6.6 and 5-6.3 of the Land Development Code. A Minor Subdivision may be approved upon the finding by the Board that the application meets the following criteria:

a) Provide for a public water supply.

In 1974, the owner agreed to purchase “out of district water” from Strausburg Sanitation and Water District (SSWD and water is currently supplied to the existing building through a meter located on the eastern edge of Strasburg via a private water line. SSWD currently provides water service for the property, and there has been no discussion by the District's board of directors to discontinue water service

b) Provide for a public sewage disposal system.

The lot will be served by an On-site Wastewater Treatment System (OWTS). Arapahoe County Health Department (ACPH has no objection to the site being served by septic systems, provided that the system is permitted,

inspected, and operated in accordance with ACPH's current OWTS Regulations.

- c) Provide evidence to show that all areas of the proposed subdivision which may involve soil or topographical conditions presenting hazards or requiring special precautions have been identified by the subdivider and that the proposed uses of these areas are compatible with such conditions.

The Colorado Geological Survey had no comments on this development.

- d) Comply with all applicable zoning regulations governing the property as adopted by the Board of County Commissioners.

The proposed application meets the zoning regulations. Explain how (does it meet minimum lot size and minimum lot width in the B-4 zone?)

- e) Comply with the Mineral Resource Areas in the Regulation for Areas of Special Interest as adopted in the Arapahoe County Zoning Regulations.

The Mineral Resource Map does not cover the subject site (Comprehensive Plan Map B-8).

- f) Provide evidence that the school district can serve the development.

The proposed commercial uses under the existing B-4 zoning will not generate any students.

In addition to the criteria for a Final Plat, a Minor Subdivision must meet the requirements of 5-6.6.A.2. A Minor Subdivision is any subdivision that:

- a. Creates no more than four parcels;
- b. Does not require the extension of municipal/public facilities or the creation of significant public improvements as determined by the PWD Department;
- c. Fronts an existing street and does not involve any new streets;
- d. Does not adversely affect the remainder of the parcel or adjoining property;
and
- e. Is not in conflict with any provisions of the Arapahoe County Comprehensive Plan, Zoning Resolution or these regulations

The proposed Minor Subdivision is a single lot. As discussed above, the site is already served by the Strasburg Sanitation and Water District. The site fronts an existing street and does not require the construction of any new streets. The subdivision would create a single lot with no remainder parcels. The proposal is not in conflict with plans or regulations, as discussed in an earlier section of this report.

3. Referral Comments

Comments received during the referral process are summarized in the attached table below. Any late responses will be conveyed verbally at the public hearing.

STAFF FINDINGS:

Staff has visited the site and reviewed the plans, supporting documentation, and referral comments in response to this application. Based on the review of applicable policies and goals, as outlined in the Comp Plan, review of the subdivision regulations, and analysis of referral comments, our findings include:

1. The proposed Minor Subdivision is not in conflict with the Arapahoe County Comprehensive Plan.
2. The proposed Minor Subdivision complies with the Approval Standards contained in Section 5-6.3, enumerated in the Arapahoe County Land Development Code.
3. The proposed Minor Subdivision complies with the Intent Requirements contained in Section 5-6.6.A, enumerated in the Arapahoe County Land Development Code.

STAFF RECOMMENDATION:

Considering the findings and other information provided herein, the staff recommends approval of Case No. PM25-002, K & F Minor Subdivision, with the following condition of approval:

1. Prior to the signature of the final copy of these plans, the applicant will address all Public Works and Development Staff comments.

The Planning Commission has alternatives that include the following:

1. Recommend approval of the proposed Minor Subdivision.
2. Continue to a date certain for more information.
3. Recommend denial of the proposed Minor Subdivision.

CONCURRENCE:

The Public Works and Development Planning and Engineering Services Division have reviewed the application, and the Arapahoe County Public Works and Development Department is recommending approval of this case.

PLANNING COMMISSION DRAFT MOTIONS – PM25-002, K & F MINOR SUBDIVISION:**Conditional Recommendation to Approve**

In the case of PM25-002, K & F Minor Subdivision, I have reviewed the staff report, including all exhibits and attachments, and have listened to the applicant's presentation and the public comment as presented at the hearing, and hereby move to recommend approval of this application based on the findings in the staff report, subject to the following conditions:

1. Prior to the signature of the final copy of these plans, the applicant will address all Public Works and Development Staff comments.

Staff provides the following Draft Motions listed below as general guidance in preparing an alternative motion if the Planning Commission reaches a different determination:

Recommendation to Deny

In the case of PM25-002, K & F Minor Subdivision, I have reviewed the staff report, including all exhibits and attachments, and have listened to the applicant's presentation and the public comment as presented at the hearing, and hereby move to recommend denial of this application based on the following findings:

1. *State new findings in support of denial as part of the motion.*

Continue to Date Certain:

In the case of PM25-002, K & F Minor Subdivision, I move to continue the hearing to [date certain], 6:30 p.m., to obtain additional information and to further consider the information presented.

RE: Letter of Intent
58975 U.S. HWY 36

Dear Public Works & Development:

Our company, Carrick Engineering Corp, on behalf of the property owner, K & F Properties, is proposing a project within unincorporated Arapahoe County. The project is located at 58975 U.S. Highway 36; parcel ID 1983-00-0-00-223. The project includes 6.41 acres and is currently zoned B-4.

The client proposes to erect a 10,500 S.F., one story pre-engineered building for the purposes of light industrial metal fabrication, which is consistent with the B-4 zoning. The company currently has seven employees and with the new building expects to have a staff of 14. Normal work hours are first shift, Monday-Friday. The development will conform to all applicable Arapahoe County development standards.

Sincerely,
Carrick Engineering Corp.

Re: K and F Subdivision
Minor Subdivision
PM25-002

Scope/Location:

Carrick Engineering Corp., on behalf of the property owner, K & F Properties, is proposing a project within unincorporated Arapahoe County. The project is located at 58975 U.S. Highway 26; Parcel ID 1983-00-0-00-223. The project includes 6.41 acres and is currently zoned B-4.

The applicant proposes a new 10,500 square foot, one story, pre-engineered building for the purposes of light industrial metal fabrication.

Items included in the application:

Plan Exhibit – PM
Traffic Impact Letter

Findings:

The Arapahoe County Division of Engineering Services has reviewed this application and has the following findings:

1. This application is for the Minor Subdivision only. Civil construction plans and final design will be required prior to Building Permit issuance. At the time of the building permit, an Engineering case (E-Case) will be created and full site analysis will be required including but not limited to Phase 3 drainage report (with design elements), civil site construction plans, and grading & erosion control plans.

2. This development lies within the boundaries of the following jurisdiction:
 - North Kiowa Bijou Groundwater Management District
 - Strasburg Metro Park & Recreation District
 - Strasburg Fire District
3. Land development improvements do not directly affect a drainageway or regional stormwater facility, MHFD maintenance eligibility is not required.
4. This development is subject to the Rural Transportation Impact Fee (RuTIF). RuTIF fees to be collected at time of building permit.
5. This development may require a Subdivision Improvement Agreement (SIA) to guarantee drainage improvements, at time of the E-Case.
6. No offsite or street parking is proposed with the development.
7. A traffic impact letter was provided by the applicant's engineer evaluating the additional traffic which would be generated based on the additional square footage; this letter will require additional updates if there are any changes prior to the E-Case.
8. Engineering review and approval fees are paid in full.
9. No variances have been requested/granted:

Recommendations:

The Division of Engineering Services recommends this case favorably subject to the following conditions:

1. The applicant agrees to address the Division of Engineering Services' comments and concerns as identified within this report.

Staff Comments:

The Arapahoe County Division of Engineering Services has reviewed this application and has the following comments:

1. Pursuant to the Arapahoe County Public Works and Development Fee Schedule and policy, the applicant is provided three (3) resubmittal reviews at no charge. Should items not be addressed by the fourth submittal, the review fee identified in the Fee Schedule may apply to every subsequent submittal.
2. US Highway 36 is a State Highway and will require a State access permit at the time of building permit.

Permits Required Prior to Building Permit

1. Public Improvement Permit
 - For all public improvement with a County easement or ROW (stormwater facilities, sidewalks etc.)
2. Grading, Erosion and Sediment Control (GESC) Permit
 - Arapahoe County requires that a GESC (Grading, Erosion, and Sedimentation Control) Permit be obtained prior to the start of land disturbing activities within the unincorporated areas of the County. Information on the County's GESC permit requirements can be obtained in the Arapahoe County GESC Manual.
 - This permit will be issued by SEMSWA, please refer to their notes for further information.
3. Building Permit
4. Oversize/Overweight Vehicle Permit
 - This permit governs the use of Arapahoe County Roadways where vehicles exceed size or weight limitations as established by the State of Colorado or by Arapahoe County.

Enclosed with this Response are two letters from 2023 that summarize the status of water service from Strasburg Sanitation and Water District to the subject property in Case No. PM25-002 K and M Minor Subdivision. The District currently provides water service for the property and there has been no discussion by the District's board of directors to discontinue water service. However, the District has reserved, and continues to reserve, its right to terminate water service and require the property's compliance with the District's rules and regulations at any time.

Re: Service and Billing Notice
Strasburg Sanitation & Water District

Dear Property Owners:

The Strasburg Sanitation & Water District is the governmental entity that provides water service to your property (“Service”). This letter concerns the manner in which Service is provided to your property and requirements you must meet to continue Service.

Provision of Service. The District provides Service to the successor of Schmidt Reddi-Mix Concrete under an existing agreement (“Agreement”) to serve the Reddi-Mix Cement Plant and one single-family home. The District invoices the Reddi-Mix Cement Plant for all water conveyed through the service line.

At some point in time, property owners extended the service line to serve additional buildings. The extension of Service to these users was not authorized by the District. Service to multiple properties on a single service line violates the District’s rules and regulations, and the District could terminate Service based on the violation.

In 2016, the commercial property owner at the end of the service line requested that the District continue to provide Service under the Agreement despite the violation. The District determined not to terminate service through the single service line at that time, and determined to deliver one invoice for all Service through the District’s meter on that service line.

At the District’s public meeting on October 18, 2023, the Faulkners (contract purchasers of one of the properties on the service line) and Eddie Lederman (real estate agent on behalf of the seller), requested the District confirm it will continue Service prior to those parties’ real estate closing scheduled for October 20, 2023. At this time, the District agrees to continue Service as determined in 2016, but reserves its right to terminate the Service and require compliance with the District’s rules and regulations at any time.

The District is not responsible for allocating costs for Service. As another accommodation to you, the District will mail a copy of the monthly invoice to each property owner on the service line. Failure to pay or insufficient payment of an invoice will result in penalties, interest and late charges or the termination of Service to the entire service line.

CDPHE Backflow Prevention Requirement. The Colorado Department of Public Health and Environment (“CDPHE”) requires the installation of backflow prevention devices on commercial properties’ service lines. The District is required to inspect all commercial properties receiving Service to ensure compliance with CDPHE regulations.

Property owners must allow the District to inspect existing backflow prevention devices to determine whether new backflow prevention devices are required. Owners are responsible for the installation and operation of the backflow prevention devices.

Responsibility for Repair to Service Line. Customers are responsible for repairing leaks in service lines pursuant to the District’s rules and regulations. If a leak is not repaired within 72 hours, the District may terminate Service or enter upon the property to repair the leak and invoice the property owners for the costs of the repairs. The District is not responsible for any damages caused by a leak or repairs made pursuant to the District’s rules.

Please feel free to contact our office if you have any questions or concerns.

Sincerely,

Tracy Griffin

Subject: PM25-002, Fabrication Facility, 58975 E US Highway 36, Strasburg, CO 80136

Dear Ernie Rose:

Land Use case reviews are conducted by Arapahoe County Public Health (ACPH) when they:

- Utilize an On-site Wastewater Treatment System (OWTS) or individual water well.
- Involve sewage disposal plans for subdivisions, a review of the water supply quality report of a proposed water supply for the subdivision will also take place.
- Are suspected of being impacted by flammable gas from a nearby landfill, or if they involve a past, present, or proposed solid waste disposal site.

Landfill Operations:

There are no documented landfills, past, present, or planned that are within 1,000 feet of this property.

Septic and Wastewater Systems:

There is an existing septic system on the property that is to be retained. Ensure the existing septic system is appropriately marked and flagged to prevent vehicles from driving over any part of the system.

ACPH has no objection to the new facility being served by an OWTS provided that the system is permitted, inspected and operated in accordance with ACPH's current OWTS Regulation. Based on the applicant's description, a permit for the installation and final approval of the OWTS is required. To start the process, the applicant may complete an application here - <https://myhealthdepartment.com/acph>. More information is available at [Arapahoe County Public Health - Septic Systems](#). Please contact water@arapahoegov.com with questions regarding the septic system.

Water Systems:

Water is being supplied via a private water line from Strasburg Sanitation and Water District.

No known monitoring or drinking water wells were identified on the property. The applicant may conduct a due diligence examination of records at the Division of Water Resources, <https://dwr.state.co.us/Tools/WellPermits>, to ensure any existing wells on the property are properly abandoned.

DRAINAGE MASTER PLAN

THE POLICY OF THE COUNTY REQUIRES THAT ALL NEW DEVELOPMENT AND REDEVELOPMENT SHALL PARTICIPATE IN THE REQUIRED DRAINAGE IMPROVEMENTS AS SET FORTH BELOW:

- DESIGN AND CONSTRUCT THE LOCAL DRAINAGE SYSTEM AS DEFINED BY THE PHASE III DRAINAGE REPORT AND PLAN.
- DESIGN AND CONSTRUCT THE CONNECTION OF THE SUBDIVISION DRAINAGE SYSTEM TO A DRAINAGEWAY OF ESTABLISHED CONVEYANCE CAPACITY AS A MASTER PLANNED OUTFALL STORM SEWER OR MASTER PLANNED MAJOR DRAINAGEWAY. THE COUNTY WILL REQUIRE THAT THE CONNECTION OF THE MINOR AND MAJOR SYSTEMS PROVIDE CAPACITY TO CONVEY ONLY THESE FLOWS (INCLUDING OFFSITE FLOWS) LEAVING THE SPECIFIC DEVELOPMENT SITE. TO MINIMIZE OVERALL CAPITAL COSTS, THE COUNTY ENCOURAGES ADJACENT DEVELOPMENTS TO JOIN IN DESIGNING AND CONSTRUCTING CONNECTION SYSTEMS. ALSO, THE COUNTY MAY CHOOSE TO PARTICIPATE WITH THE A DEVELOPER IN THE DESIGN AND CONSTRUCTION OF THE CONNECTION SYSTEM.
- EQUITABLE PARTICIPATION IN THE DESIGN AND CONSTRUCTION OF THE MAJOR DRAINAGEWAY SYSTEM THAT SERVES THE DEVELOPMENT AS DEFINED BY ADOPTED MASTER DRAINAGEWAY PLANS (SECTION 3.4 OF THE ARAPAHOE COUNTY STORMWATER MANAGEMENT MANUAL) OR AS REQUIRED BY THE COUNTY AND DESIGNATED IN THE PHASE III DRAINAGE REPORT.
