RE: Bennett Neighborhood Outreach

The purpose of the Neighborhood Outreach was to meet with those who were interested in our proposal and educate them on who we are and what we want to do. We also met with those who lived nearby to hear their comments and answer any questions or concerns that they had.

The meeting was conducted on 8/9/2023 and lasted for one hour and had five attendees.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Reyher".

Comments:

- Charlene asked about the future water rights. Justin responded with; there is a pond on the lot for use, but we can drill for a water well.
- Charlene, expressed her concerns by saying she doesn't want people driving on the road in front of her property. Justin responded with; currently it's the only access we have to the lot right now. We are trying to find a different route to the land.
- Charlene also recommended a different route for the road to come in. Justin responded with; potentially we could have an easement with Jim (a neighbor) in exchange for water.

Comments:

- Darvin asked if they are only adding single-family homes or will they build apartments as well? Justin responded with; Only single-family homes, no townhomes or apartment buildings.
- Darvin asked, "How much water usage per month?" Justin responded with; County wide, everyone gets half an acre of water per lot.
- Darvin asked, "Are you going to use metro districts?" Justin responded with; No, it's a very expensive process when it comes down to property tax. The cost is high maintaining the fees for it.
- Darvin also asked, "Would there be a new school open for all these new kids to go to?" Justin responded with; Maybe a new school or a check for the open space. We would need to make a bus route for that to happen.
- Darvin also asked, "Who are you working with at Arapahoe County?" Justin responded with; Kat Hammer.

Charlene Hogarth

Comments:

- Charlene asked about the future water rights. Justin responded with; there is a pond on the lot for use, but we can drill for a water well.
- Charlene, expressed her concerns by saying she doesn't want people driving on the road in front of her property. Justin responded with; currently it's the only access we have to the lot right now. We are trying to find a different route to the land.
- Charlene also recommended a different route for the road to come in. Justin responded with; potentially we could have an easement with Jim (a neighbor) in exchange for water.

Name:

Darvin Horrell

Comments:

- Darvin asked if they are only adding single-family homes or will they build apartments as well? Justin responded with; Only single-family homes, no townhomes or apartment buildings.
- Darvin asked, "How much water usage per month?" Justin responded with; County wide, everyone gets half an acre of water per lot.
- Darvin asked, "Are you going to use metro districts?" Justin responded with; No, it's a very expensive process when it comes down to property tax. The cost is high maintaining the fees for it.
- Darvin also asked, "Would there be a new school open for all these new kids to go to?" Justin responded with; Maybe a new school or a check for the open space. We would need to make a bus route for that to happen.
- Darvin also asked, "Who are you working with at Arapahoe County?" Justin responded with; Kat Hammer.

Comments:

- Hector was curious if there would be more police because more population means more crime. Justin responded with; I am not sure, that would be a question for Arapahoe County Sherrif's Department. The application process includes soliciting feedback from Police and Fire departments.

Name:

Brian Johnson

Comments:

Brian Johnson expressed his concern for water supply when he asked if farm animals would be allowed in this development. Justin responded with; I believe the Arapahoe County Code allows one large animal per acre or two small animals per acre, but we would need to review the code. Yes, if animals are allowed on these lots, they would need water to drink. The lots should have around 0.5 acre feet of water withdrawal per year which is around 163,000 gallons a year.

Comments:

- All of these individuals had questions and comments about the water supply. They wanted to know where the water was coming from, which Justin responded with; we have water rights for the 320 acres next to the development, and we are working on adjudicating the water for 160 acres. We should have plenty of water for our development.
- They also were concerned on the amount of water everyone would receive, Justin responded with; Arapahoe County is in the middle of a study to determine how much water is in Eastern Arapahoe County. The Adams County well life requirement is 300 years of water supply. The last time I checked Arapahoe County requires 100 years, but their long range plan is to move to 300 years. We want to make sure we have responsible development.

Ty Burnett

Comments:

Ty was curious about new traffic in the area and didn't want more people driving around. Justin responded with; We did a traffic study with an engineer and it shows a little over 509 new trips a day. Any development under 250 trips a day can apply for a waiver. Our engineer believes the current roads can handle the additional traffic volume without any offsite improvements.

Michelle was curious if this development is going to allow Accessory dwelling units. Justin responded with; I believe ADU's are permitted in Arapahoe County, but the specifics would need to be verified with Arapahoe County.
