

WAIVER PER PURCHASING POLICIES

WAIVER OF SOLICITATION ☐ WAIVER OF QUOTE ☐
SELECT SOURCE ☒ FOR INFORMATION ONLY ☐

DESCRIPTION OF PROJECT: This PR is to support the 2018 Raman Identification Device Project for Adams/Jefferson County as well as Aurora Hazmat Teams.

NAME OF THE VENDOR: FarrWest Environmental Supply, Inc.

JUSTIFICATION (How were they selected, Why requesting to waive purchasing policy process): The NCR/UASI Regional Hazmat Committee has requested to purchase four of these meters to be distributed amongst three of the Regional Hazmat Teams; Aurora Fire, Adams/Jeffco Hazmat, and Boulder County Hazmat. The Rigaku CQL offers a more advanced library of chemicals that is able to detect. In addition, the device is able to detect trace amounts of opioids which has become a serious concern in the State over the last few years. The Rigaku CQL is already in service with one of the Regional Hazmat Teams and has been deemed as the operationally preferred device for Hazmat incidents. By adding more of the same device, it will create and maintain interoperability between the Regional Hazmat Teams. If all regional devices are the same, then the training will be more efficient and simplified. It will also make it easier for teams to integrate, operate and depend on each other during an incident if all teams utilize and have been trained on the same equipment.

PRICE: \$172,619.00 (for 3 devices) ANNUAL MAINTENANCE: \$ 0

Longmont, CO 80501

Stephany Juneau, MPA
Homeland Security Resource Support Analyst
North Central All Hazards Region

Re: NCR RAMAN Meter Grant

Hi Stephany,

The purpose of this letter is to request a professional preference for the acquisition of the Rigaku CQL 1064mm Handheld RAMAN Chemical Identifier. The NCR/UASI Hazmat Sub-Committee has requested to purchase four of these meters to be distributed amongst three of the Regional Hazmat Teams, Aurora Fire, Adams/Jeffco Hazmat, and Boulder County Hazmat.

The Rigaku CQL has been specifically requested by the Regional Hazmat Teams because

- The Rigaku CQL offers a more advanced library of chemicals that it's able to detect in addition to its ability to detect trace amounts of opioids which has become a serious concern in the State over the last few years.
- The Rigaku CQL is already in service with one of the Regional Hazmat Teams and has been deemed as the preferred device for Hazmat incidents.
- By adding more of the same device, it will create and maintain interoperability between the Regional Hazmat Teams.
- If all regional devices are the same, then the training will be more efficient and simplified.
- It will also make it easier for teams to integrate, operate and depend on each other during an incident if all teams utilize and have been trained on the same equipment.

If you have any questions or concerns, please feel free to reach out to me at your earliest convenience.

Thanks
Stew Visser

Rigaku Analytical Devices, Inc.
30 Upton Drive, Suite 2
Wilmington, MA 01887

Re: Capability Statement for Rigaku's ResQ Product Line of 1064nm handheld Raman analyzers

To Whom It May Concern:

I would like to take this opportunity to thank you for considering Rigaku's line of Progeny ResQ 1064nm handheld Raman chemical identification systems. Rigaku Analytical Devices, Inc is the sole USA manufacturer of the Progeny ResQ 1064nm line of handheld Raman chemical detection systems. This includes the following products: ResQ, ResQ FLX, and ResQ CQL.

Rigaku's Progeny ResQ line of 1064nm handheld Raman analyzer is protected by specific trade patents and cannot be duplicated for any purpose. ResQ, ResQ FLX and ResQ CQL and associated accessories, software, and services are only available through Rigaku Analytical Devices and its authorized dealers. If you have received pricing information from persons of companies other than Rigaku Analytical Devices, Inc. or its approved dealers, it will be considered non-authorized by Rigaku Analytical Devices, Inc.

FarrWest Environmental Supply, Inc. is the authorized representative for the following states:

- Alabama, Alaska, Arizona, Arkansas, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wisconsin, Wyoming

Currently, there is no other device providing comparable advanced analytics and unique features which extend analysis capabilities in the field. The following table lists ResQ's technical specifications and their associated advantages for rapid detection of the largest number of "Real World" chemical threats most commonly encountered in the field and not offered on any other device of its kind.

Table 1: Rigaku's ResQ, ResQ FLX and ResQ CQL 1064nm handheld Raman unique specifications with user benefits

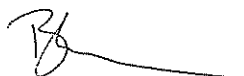

Technology	<ul style="list-style-type: none"> Raman Spectroscopy.
Unique integrated technology	<ul style="list-style-type: none"> 1064nm minimizes fluorescence effects: allows for direct analysis of colored/impure chemicals through colored packaging. Water is invisible to 1064nm Raman, unlike technologies effected by moisture and moisture content within a sample. Optional onboard Automated Colorimetrics provides non-visible Trace detection of residues.
Portability	<ul style="list-style-type: none"> Handheld device, optimized for one handed operation.
Ruggedness	<ul style="list-style-type: none"> US MIL-STD 810G designed, tested and certified rugged. IP 68 designed, tested, certified use in varying environmental conditions and decontamination.
Operational temperature range	<ul style="list-style-type: none"> Unit can be operated in -20°C to +40°C temperature continuous and +50°C intermittent Withstands temperature and humidity fluctuations.
Rapid start-up	<ul style="list-style-type: none"> 60 seconds from power on to analysis.
Rapid results	<ul style="list-style-type: none"> Analysis results generated in less than one minute for every scan.
Ease of operation	<ul style="list-style-type: none"> Scans in direct contact AND through translucent plastic or glass containers. Universal sample holder for analysis of samples in varying forms and packaging. Smartphone like touch-screen interface or large button activation. User prompted step-by-step onscreen analysis activation. Analytical results received after only 3 button presses. Onboard system status monitoring and calibration. Reduces down-time and necessity for re-calibration at a service depot.
Capability of analysis	<ul style="list-style-type: none"> Liquids, solids, powders, pastes, gels. Colored substances and substances found in colored translucent packaging. These types of substances are most often encountered in real-world samples. Optional trace residue detection with QuickDetect. Comparative spectral analysis overlay easily performed onboard. User adjustable focus ensures analysis of material and not the packaging. 4C software automatically monitors analysis for combinations of substances used in threat, drug manufacturing, and other recipes. Users receive onscreen alert to potential threat or drug manufacturing activity.

Onboard Library	<ul style="list-style-type: none"> At least 13,000 substances in Library. (ResQ and CQL only. ResQ FLX includes narcotics library. Additional libraries can be purchased separately.) ResQ segmented libraries for safety and security applications include the latest explosives, precursors, CWAs, TICs/TIMs, narcotics and psychotropic drugs, steroids, cutting agents, pharmaceuticals and diluents. Easily expandable to add emerging threats and other substances. 4C library with drug manufacturing and other types of threat manufacturing recipes. Library updates provided more than once a year.
Evidence documentation	<ul style="list-style-type: none"> Onboard 5MP camera captures image of sample and surroundings. Image(s) stored along with analysis results in tamper-resistant file. 21 CFR 11 compliant analysis results are traceable and include unique date, time and serial number stamp.
Remote viewing Data transfer Reporting	<ul style="list-style-type: none"> Remotely view analysis data in "Real-Time" on cell phone, tablet or PC. Exportable data in numerous file formats. Data transfer to cell phone, tablet, computer or laptop via USB and WiFi (can be disabled). Customizable report template and easy report generation.
Onboard safety features	<ul style="list-style-type: none"> User activated scan delay timer of up to 10 minutes in case an energetic is suspected. User adjustable laser power level from 10 mW to 490 mW in 10 mW increments.
Presumptive Field Testing Requirements and Qualifications	<p>Laser and safety compliance</p> <ul style="list-style-type: none"> ANSI Z136.1 - Safe Use of Lasers IEC 60825-1 – Independently tested and certified to meet compliance for laser radiation pertaining to human safety. <p>Spectrographic analytical compliance</p> <ul style="list-style-type: none"> ASTM Standard: E2529-6 (2014) resolution. ASTM Standard: E 1840-96 (2014) calibration. <p>Validation of analytical method, evidence processing and evidence integrity</p> <ul style="list-style-type: none"> ASTM E2549-14 Standard Practice for Validation of Seized-Drug Analytical Methods. SWGDRUG Recommendations Version 7-1 ENFSI DRUGS WORKING GROUP Guidelines on Sampling of Illicit Drugs for Qualitative Analysis US FDA Code of Federal Regulations Electronic Records, Electronic Signatures UK MHRA Data Integrity Definitions and Guidance
Customer support package	<ul style="list-style-type: none"> 24/7/365 Reachback service for the life of the unit. (ResQ and CQL only) Library updates provided for the life of the unit. Software updates provided for the life of the unit. Support: online, phone, email for the life of the unit.
Warranty	<ul style="list-style-type: none"> 24-months for ResQ and CQL. 12-months for ResQ FLX.
Training	<ul style="list-style-type: none"> Comprehensive 4-hour onsite training for an unlimited number of users for ResQ and CQL. Optional onsite training for ResQ FLX. Online accessible training modules.

The entire team at Rigaku Analytical Devices stands behind the Progeny ResQ line of 1064nm based Raman handheld Raman analyzers, and is here to partner with your agencies' efforts to stop the proliferation of threats- narcotic, explosive, Chemical Warfare Agent and others. We are committed to supporting our end users in the field.

Please contact us at any time for assistance. Your feedback is always appreciated. Thank you again for considering Rigaku Analytical Devices.

Sincerely,

Bree Allen

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

They have the wrong part number advertised and that why it's cheaper. That price should be for the Narcotics only. Part#1021710 should be for Narcotics and Explosives.

I don't know what percentage discount the other company offers, but the list price is \$5500. I can try and keep an eye on it and see when they get it updated.

Thanks again! So how much should the part# 1021710 be? Should I wait till it reflects the change? GSA says \$2,992.44 and yours is \$5,445. I will write on it that your device does both narcotics and explosives but may need to show our finance the actual quote.

Thank you,

Stephany,

I ran the numbers from GSA and we are still about \$4200 cheaper on the total price. And if they don't include the free 1-day of on-site training that we include with the CQL, that would add an additional \$7481.10 for the 3 locations. The GSA website did have the wrong price for part# 1021710 and Rigaku is in the process of having them fix it.

Good morning,

I have a quick question about the pricing. I am wondering if you are competitive with GSA pricing or if you are on their list. It will make things easier for us fiscally when pushing the pricing through our finance department! If not, no worries. I do see your sole source letter. Thank you for sending that over!

Stephany,

Attached is the estimate for the Rigaku CQL, datasheet and our sole source letter. The estimate includes 3-days of training for each location. FarrWest provides everything from the equipment to training and support. We work very closely with municipal and State agencies all over the US with regards to Hazmat, explosive and narcotic detection equipment and training. We do have all of these on our H-GAC and BuyBoard Co-Op contracts if that makes things easier for purchasing. If you have any questions or if there is anything else you need, please let me know. Have a great day!

Stephany,

I will get working on the estimate right away and have it over shortly. I've also attached a copy of our W-9.

Stephany,

I will get this information back to our office and have them send a quote and a W9 for you possibly today if not tomorrow.

P.S. My email is now mparsons@farrwest.com we dropped the env out of it but I can still get mail at the old one.

Thank you,

Michael Parsons

Good morning,

My name is Stephany Juneau and I work for the North Central Region out of metro Denver. I am working with Stew Visser and Glenn Grove from the Boulder and Adams/Jefferson County Hazmat on obtaining Raman Handheld Identification Devices. Stew gave me your contact and stated that they would like to move forward with purchasing the Rigaku RAMAN meter.

So with that, I am wondering if you can provide me with a couple of different things! First, I am wondering if you can provide me with a quote for the Rigaku Raman meter. We will be purchasing 3 together now and 1 more device toward the end of the year (due to funding purposes). The quote can be for:

Stephany Juneau
North Central Region/Arapahoe County
12649 E. Caley Ave. Suite 114
Centennial, CO 80111

I am also wondering if you can send me your company's W9 so I can begin to set you up in our County system. We work through Arapahoe County Sheriff's Office, so that is who you will receive checks from.

Please let me know if you have any questions or need any additional information.

Thank you for your time,

Request for Taxpayer Identification Number and Certification

► Go to www.irs.gov/FormW9 for instructions and the latest information.

Give Form to the
requester. Do not
send to the IRS.

Print or type.
See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank. FarrWest Environmental Supply, Inc.	
2 Business name/disregarded entity name, if different from above	
3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only one of the following seven boxes. <input type="checkbox"/> Individual/sole proprietor or single-member LLC <input checked="" type="checkbox"/> C Corporation <input type="checkbox"/> S Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Trust/estate <input type="checkbox"/> Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ► Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is not disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner. <input type="checkbox"/> Other (see instructions) ►	
4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3): Exempt payee code (if any) _____ Exemption from FATCA reporting code (if any) _____ <small>(Applies to accounts maintained outside the U.S.)</small>	
5 Address (number, street, and apt. or suite no.) See instructions. 108 Commercial Pl	Requester's name and address (optional)
6 City, state, and ZIP code Schertz, TX 78154	
7 List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number								
			-					
or								
Employer identification number								
5	6	-	2	4	7	5	0	8 4

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding*, later.
